The above STIP amendment schedule provides consistency for WSDOT regions and MPOs to submit projects for inclusion into the STIP. Local agencies and regional WSDOT Program Management personnel need to be aware of MPO timelines where applicable and work together to meet critical dates.

It is critical that all submittals are forwarded to Stephanie Tax electronically no later than the due date identified in the chart above, to be included in the monthly amendment process. Rural project information may be submitted directly to Stephanie Tax, as well as notifying the affected RTPO.
